INDUSTRIAL SOLUTIONS

MINING SECURITY

Protecting against theft, sabotage, illegal mining activity & labour unrest. CAG delivers layered mining security built on threat intelligence, perimeter dominance, and rapid-response capability, aligned with operational continuity and regulatory realities.

INDUSTRIAL RISK

Security frameworks designed for high-risk industrial environments. From infrastructure protection and contractor vetting to crisis response and business continuity support. Securing assets, personnel, and production under volatile conditions, ensuring stability across operations and elevated threat cycles.

SECURITY BUILT FOR COMPLEX ENVIRONMENTS

“ Proven in South Africa’s high-friction mining environment where security failure halts production. ”

RISK MITIGATION CONSULTING & SOLUTIONS

RISK AUDITING

To identify, quantify, and prioritise strategic, operational, and physical risks before they materialise. CAG provides independent risk advisory grounded in real-world threat exposure, enabling leadership to make informed decisions.

SECURITY ARCHITECTURE

Security architecture tailored to your organisation, sector, and operating environment. Policy design and governance alignment, we build defensible, scalable security frameworks that stand up to scrutiny and real-world pressure.

RISK CLEARLY DEFINED IS DEFINITELY MANAGED

“

Security frameworks shaped by operational consequence, not theoretical risk models alone.
